

ALEX DIMITRIU

Sound Designer | Sound Editor

ABOUT ME

Coffee powered, innovative, highly motivated roaring shadow, MA graduate with a wide range of experience, from live sound to audio recording and sound design. Skilled at using the latest technology to harness, play with and shape sounds sourced from the many layers existent around us to evoke emotions, tell stories, illustrate vivid images where picture doesn't exist and to support narrative where it does.

A lively individual, seeking a challenging role in my field of expertise, where my knowledge can thrive, whilst developing and gaining further skills.

Safari Travelling Circus

Live Sound Engineer/Lead Sound Technician, 2010-2013

Sound quality and perfect timing are two of the most important elements in a successful circus show. I followed a structured technical script which needed great attention to detail. Quick reflexes skills played a big role as the show was unpredictable due to the various taming performances. As a result of my dedication, hard work and sound quality improvement I was promoted to Lead Sound Technician after only one year.

Bell Sound Studios

Recording Sound Engineer, 2006-2010

Being passionate about music and sound, I started as a volunteer Assistant Sound Engineer. I showed great progress and hard work and was offered the role of Recording Sound Engineer. My aim has always been to produce high-quality projects, ready for mixing, and I am proud to have delivered what was requested every time.

Achievements

Letter of Commendation

Bournemouth University, 2019

I received a rare commendation letter, offered beyond the classic grading system, founded in recognising my work ethic, teamwork, dedication and high level of sound design work produced over the period of the course.

*** Letter available on request ***

Honorable Mention for Original Sound Design

FKM Fantastic Film Festival of Coruña, 2021

Between 2019 and 2021, I proudly worked as the Sound Designer for the Feature Film 'Johan'. The project offered me the opportunity to create unique sound effects and soundscapes that immersed the audience into the world created by the director, which led me to receiving the Jury's Honorable Mention for Original Sound Design Award at the FKM Film Festival in Coruna, Spain.
